

JLMD System – September 2018

CMA CGM ANTOINE DE SAINT EXUPERY 20,600 TEU JLMD Fast Oil Recovery System

Hanjin Heavy Industries & Construction's Subic Shipyard has built the biggest containership to sail under the French flag to owner CMA CGM.

This modern and impressive ship is protected against oil spill by JLMD's Fast Oil Recovery System.

The performance in any incidental situation and the valuable safeguard of critical assets for the ship owner are the fundamental motivations to decide ship owners and shipyards to install such an innovative technology.

Fast Oil Recovery Systems are emergency circuits allowing immediate and permanent access to the ship's cargo and bunker tanks.

The FOR System and the salvage-friendly ship movement, managing operational challenges while building sustainable business performance.
